Dear Mrs Dodsworth

Thank you for your email of 22nd August on behalf of the Charlton Village Residents Association about the proposed expansion of Shepperton Studios. I am grateful to you for confirming your postal address.

I was pleased to read that the Residents Association has met with representatives from Turley, who I believe are working with Shepperton Studios on the proposals. I do appreciate the concerns that you raise in your letter about the potential for an increase in traffic through Charlton Village, and I am very anxious that the proposed development benefits our local community, and is in no way detrimental to those living close to the Studios.

I have already met with representatives of the Studios to discuss the proposed expansion, and I have a further meeting in early September. At that meeting I will raise your concerns about the potential impact on traffic, and your expectations for the traffic mitigation plan, and please do keep in touch.

Yours sincerely
